

LUIS PABLO ROCHA

📍 SAN LUIS POTOSÍ, MÉXICO

COMPUTER
ENGINEER

PERSONAL INFO

📞 Phone: (+52) 444 1192990 ✉️ E-mail: luispablo2098@hotmail.com 🔗 LinkedIn: [Luis Pablo Rocha](#)

A background in programming, web, software engineering, operating systems, and other areas of technology; with a bachelor's degree focused on projects, I worked in many teams using agile work and development methodologies; building skills such as responsibility, effective communication, problem solving and organization.

EXPERIENCE

QUINI

REACT NATIVE & FIGMA | AUGUST 2023 - CURRENT

- Building a soccer betting **app** to keep track of your sports bets with your friends using React Native Framework.
- Design and creation of brand identity, logo and screens, based on basic UI/UX design patterns, using tools such as Figma and Illustrator.

ACADEMIC EXPERIENCE

DELIVERY SLP

SQL SERVER & POSTGRESQL | MAR 2021 - JUN 2021

- Database design: entity-relational model.
- Database access control and use of simple triggers.
- Developed a packet transport system in C# and Java with SQL queries to databases
 - Generate shipping orders, historical records, and role-based access control.

PREDACAD

POSTGRESQL, ANGULAR & SCRUM FRAMEWORK | FEB 2021 - JUN 2021

- Interface design following basic UX/UI principles with Figma, Illustrator and Photoshop
- Recollection and pre-processing data (student academic records) using data sheets [Excel].
- Developed and programmed a web system (data interpretation) that predicts the probability that a student will pass a subject using data mining techniques. (Web API's with JSON)

HARDWARE STORE: ONLINE ORDERS

LARAVEL, BOOTSTRAP & MYSQL | JAN 2020 - JUN 2020

- Developed a website to order from a Hardware store using web technologies such as HTM and Javascript.
- Creation of the database, normalization, and SQL statements.
- Use of the model-view-controller (MVC) architecture pattern
- The administrator had the possibility to add, edit, and delete products to a department of the hardware store. As well as control (status) of orders placed by customers.
